

## 2012-2013 Florida Cancer Plan Priority Strategies

### Florida Cancer Control and Research Advisory Council

### Florida Cancer Plan Council

**Primary statewide efforts will be concentrated to achieve progress in the following areas:**

**Goal I: A coordinated approach among public and private cancer control stakeholders to implement cancer activities statewide**

#### **Develop System Capacity**

- Continue development of an integrated statewide cancer council network including the Cancer Control and Research Advisory Council, the Florida Cancer Plan Council, and the regional cancer collaboratives
- Support the Florida Cancer Data System to capture diagnosis and treatment information from hospitalized and non-hospitalized cancer patients

**Goal II: Floridians practice the healthy behaviors associated with prevention of cancer or to reduce risk**

#### **Prevention**

- Strengthen links with partner organizations to reduce the burden of tobacco and obesity
- Emphasize the danger of UV ray exposure in Florida especially in youth
- Promote the adoption of Human Papilloma Virus vaccine for Florida's youth

**Goal III: Floridians have access to appropriate health information and effective health services for the timely detection, diagnosis, and treatment of cancer**

#### **Treatment and Access to Care**

- Improve access to care for minority populations through the utilization of Community Health Workers and Cancer Navigators
- Promote measures to increase cancer screening and early detection

**Goal IV: Floridians affected by cancer are aware of and have access to quality, appropriate services for quality of life, palliative care, and survivorship**

#### **Survivorship**

- Improve record keeping systems and raise awareness of resources for cancer survivors
- Promote the provision of treatment summaries and follow-up care plans
